COMMUNITY INTEREST COMPANY

# Dedicated to nature restoration.

We work to restore healthier, more biodiverse landscapes through practical projects that benefit wildlife, local communities and future generations.

Green Up Britain Team

## OUR TEAM

Our team brings experience from the Forestry Commission and a proven track record of ecological restoration. We lead with science, inclusion and care.

**5,335**

**UK-grown trees planted across 10 UK locations.**

Plus bespoke community projects.

Bespoke bug house created for Farnham town centre

## WHAT WE DO

### Habitat restoration

Native woodland, hedgerows, wildflower habitats and biodiversity projects.

### Responsible delivery

Site-appropriate planting, responsible sourcing, soil care and long-term establishment.

### Community engagement

Community projects, employee volunteering and connecting people with nature.
